*Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance: the prior does not teach or fairly suggest a method comprising: coding a traffic message in a standard format for transmission to at least one variable traveling on a network of streets and highways; when additional location information regarding the changes in and the additions to the highway and street designations and the place names is not originally present in a memory associated with a receiver of the traffic message, providing a leading header in front of the traffic message encoded in the standard format and at least one additional information portion following the traffic message encoded in the standard format, including the additional location information and the place names, and wherein the leading header indicates that the at least one additional information portion follows the traffic message and the header includes coding information regarding coding of the additional information portion; transmitting the message to at least one vehicle; providing the vehicle with a receiver and with means for decoding the traffic message including a location code table for correlating the highway and the street designations and the place names with location codes in the traffic message, the table being stored in the memory; decoding the traffic message with the help of the location code table; and decoding the at least one additional information portion with the help of the coding information in the header as recited in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
